2	Relative likelihood of BME staff being appointed from shortlisting compared to that of White staff being appointed from shortlisting across all posts.				
3	Relative likelihood of BME staff entering the formal disciplinary process, compared to that of White staff entering the formal disciplinary process, as measured by entry into a formal disciplinary investigation* *Note: this indicator will be based on data from a two year rolling average of the current year and the previous year.				
4	Relative likelihood of BME staff accessing non-mandatory training and CPD as compared to White staff

6. Are there any other factors or data which should be taken into consideration in assessing progress? Please bear in mind any such information, action taken and planned may be subject to scrutiny by the Co-ordinating Commissioner or by regulators when inspecting against the “well led domain.”
7. If the organisation has a more detailed Plan agreed by its Board for addressing these and related issues you are asked to attach it or provide a link to it. Such a plan would normally elaborate on the steps summarised in section 5 above setting out the next steps with milestones for expected progress against the metrics. It may also identify the links with other work streams agreed at Board level such as EDS2.
